All Rise would like to extend our gratitude to our federal partners for their ongoing efforts and support of treatment courts throughout the nation.

Points of view or opinions expressed during RISE by speakers or in written materials do not necessarily represent the official position or policies of the U.S. government, nor any of its entities.

Dear RISE attendees,

On behalf of All Rise, I am thrilled to welcome you to RISE25, held for the first time in Kissimmee, Florida!

RISE is the preeminent conference on substance use, mental health, and justice innovation. But more than that, it is a place where we come together to rededicate ourselves to making our communities safer and healthier.

RISE25 is the only place you will find the depth and breadth of educational content we offer for justice, treatment, and social services professionals, with more than 200 sessions, 20 tracks, and 20 continuing education credit hours available. Over these four days, we'll address shared challenges, celebrate each other's success, and renew our commitment to improving the lives of individuals with substance use, mental health, and co-occurring disorders.

Every day, the work you do reduces crime by addressing substance use and mental health disorders. Thank you for proving time and time again that when one person rises, we all rise.

Sincerely,

Carson Fox
CEO, All Rise

Patients are our passion. Together, we can tackle the opioid addiction crisis.

The opioid crisis is a national public health emergency, and the criminal justice system is also feeling the impact of the epidemic. People using opioids have a 52-77% chance of becoming involved in the criminal justice system. Opioid use disorder can be treated effectively with medication, and such medication is not only effective, but can save lives.¹

Toxicology testing without human observation.

Revolutionizing drug testing by integrating DNA obtained from a cheek swab with the urine collection process to positively ensure the two match.

Omnitox™ utilizes patented DNA-authentication technology, LC/MS methodology and synthetic urine detection to enable participants to submit unobserved specimens while safeguarding against substitution attempts and removing the need for difficult staffing requirements.

All Rise is the leading training, membership, and advocacy organization for advancing justice system responses to individuals with substance use and mental health disorders. All Rise impacts every stage of the justice system, from first contact with law enforcement to corrections and reentry, and works with public health leaders to improve treatment outcomes for justice-involved individuals. Through its four divisions—the Treatment Court Institute, Impaired Driving Solutions, Justice for Vets, and the Center for Advancing Justice—All Rise provides training and technical assistance at the local and national level, advocates for federal and state funding, and collaborates with public and private entities. All Rise works in every U.S. state and territory and in countries throughout the world.
